

## Doug Dotson

Web site: [www.dougdotsonpottery.com](http://www.dougdotsonpottery.com)

Doug creates pottery for daily use. Looking to the simplicity and strength of natural forms and patterns for direction, he makes pots in a way that shows the marks from my hands, from the tools he uses, and from the fire that transforms mud to pottery. Doug wants the hardy, organic feel and appearance of the pottery to be as grounding to the pot's eventual owner as it is to him when he makes it.
